

# HIFU

New Anti-aging Concept-HIFU  
(High Intensity Focused Ultrasound)

Caring SMAS, Moulding face youthful state

Comprehensively replace and beyond surgical lifting, leading the new fashion of Anti-aging

**One Course, Youthen 3-5 years**

Disclose Stars' Infinitely Young Secret

Acting Stereoly, LIFTING Layer by Layer, Infinitely Youthen Your Skin

## Technology Advantages

3 Cartridges (1.5mm, 3.0mm, 4.5mm) precisely act on the depth of skin. The energy would not act on epidermis, so it is 100% no damage to the epidermis and would not influence your life and work.

There will produce Thermal Stimulation to SMAS, Fat Layer and Dermal Collagen Fibers. The treatment result is far better than Thermage Machine.

It can lift and tighten skin at once, and the effect will last for 12-24 months.

SASS (Safe Automatic Sensor System) is used for detecting the depth and interval of each operation, which is convenient for operator to do the operation precisely.

More than 20,000 shots quality inspection and clinical tests, ensure that each treatment effect on the skin depth match the default value.

The treatment effect is definite through 5 years clinical tests. Stable performance dispenses with the frequent fault trouble from fake manufactures.

Easy to control and operate, no consumables, save cost.

There are no post-surgery downtime and you can resume your normal activities immediately.

## LIFTING Different Layers SECKILLING Skin Problem

	Instant Effect	First Month	Third Month
1.5mm	Skin Delicate, Pores Shrinking, Skin Tone Improved	The skin becomes smooth, soft, shiny and white	The skin is up to the best state, like the baby skin
3.0mm	The skin lifting effect showed immediately	The skin becomes less wrinkles, tightening and elastic	Eye line & eyebrow lifting, Pouch removal Nasolabial folds and neck wrinkles are fading
4.5mm	The skin lifting effect showed immediately	Still have the feeling of skin lifting	V face lifting, Double chin removal, Contour profile clear

1  
Non-invasive  
Safer
